

My Military Hero

By: Gisel Martinez

I am going to tell you about my military hero.

My dad is my military hero. He is in the Air force. His work is really long. He gets a lot of homework. He reads at night, not during the day. He serves our country.

I feel happy about my hero. I feel really happy about my dad. I feel so excited. I sad when he leaves for work. Mad because he can't help me with my homework. Great when he has time to play with me.

My military hero is my dad. He protects us and the state of Hawaii. He helps serve the country. He helps our country. He really likes the country that's why he helps. He saves us from danger.

I love my military hero.
