

My Military Hero

My military hero is my dad.

He is my military hero because he sacrifices his time with me to be in Afghanistan to fight for our freedom.

My dad makes me better when I'm sick. He also takes care of me and keeps me safe. He also risks his life for our country and family. My dad also tries to prevent war, not make it. He also tries to protect me. He teaches me wrestling moves so I can protect my self. He helps me with sports and tells me to practice

so, I get better at them. He makes me exercise so I get strong and healthy.

He makes me eat healthy so I get healthy.

I am also proud of him for fighting for our country. That's why he is my military hero.
