

My Military Hero
By: Amanda Marie Richter
6th Grade

**I have two, how can that be?
My dad and mom support the land and the free
My dad had 22 years of active duty you see
And enjoyed every second being all that he could be
He was a logistician for the Army State side
And kept up with the changes by a land slide
His selfless service to this great nation
Put him in harms way without jubilation
Our family was sad and missed him really bad
But duty called and the Iraqi's were glad
My dad trained the Iraqi Army to be self sufficient
While all along being so efficient
He makes me as proud as a child could see
It makes me want to be all that I can be
Now my mom, she's really cool
I don't know how she does it with all of us in school
She works full time for the VA and part time for Uncle Sam
And still manages to give us 100%, yes ma'am
She works as a reservist in a Major position
And takes care of all soldiers regardless of imposition
Mom's not been deployed to Iraq or Afghanistan
And we sure hope it is not in the plan
God is looking over my family and me
And the home of the brave for eternity
Mom and Dad are my heroes forever more
From the outside in, right to the core**
